## **Recruiting is now open and applications are being accepted for the UCPath Center.**

Recruitment has opened for new career opportunities at the UCPath Center. The University is committed to supporting the UC community by giving priority consideration to UC employees seeking employment opportunities at the UCPath Center. All UC employees are encouraged to explore these opportunities, which can be found on the [UC systemwide job board](#).

As part of the UCPath project, the University is opening a new shared services center to support payroll, academic personnel, timekeeping, and human resources services for employees at all UC campuses and medical centers. The shared service center, called the UCPath Center, will be located in Riverside.

The UCPath Center is offering career opportunities in: Benefits, Payroll, Human Resources, Fulfillment and Records, Quality, Business Operations, HR Information systems, and Customer Service. The University expects to hire 156 positions by April, 2013, and up to 500 positions when the Center is fully operational in October, 2014.

Applications from UC employees will be screened, qualified applicants will be interviewed, and job offers will be made prior to interviewing external applicants. In the event that two candidates are equally qualified, priority will be given to current UC employees. By attracting current UC employees, the UCPath Center will build a team that is familiar with the University's culture and better positioned to deliver quality service to UC employees.

The recruitment period for managerial, technical, and executive support positions closes on December 21, 2012; for all other positions the recruitment period will close on January 18, 2013.

Applications are being accepted at the University systemwide job board at:
